4. SCHEDULE OF COMPLETION

- 4.1. UCSL target to complete the total job scope not later than 02 months from the date of commencement.
- 4.2. Schedule of work should be planned without affecting yard production.
- 4.3. The work shall be scheduled sequentially for the cranes in Bay-3, Bay-2, and Bay-1, subject to prior approval from the Officer-in-Charge.
- 4.4. The contractor must submit a detailed schedule of work and get approval from the officer in charge.
- 4.5. The project should be completed within the agreed timeline.

6. PERIOD OF CONTRACT & COMMENCEMENT OF SERVICES

- 6.1. The contract shall be valid for a period of 12 months from the date of issue of Work Order or till completion of work, whichever is earlier and no escalation in rate shall be allowed by UCSL on whatsoever reason.

7. METHOD OF AWARDING CONTRACT

- 7.1. Contract will be concluded with Bidder qualifying technically (including eligibility criteria), agreeing to Commercial conditions (Annexure VI) and emerging as L1.
- 7.2. UCSL also reserves the right to split the work orders to any number of bidders willing to match with L1 rate, if the performance of selected bidder is not satisfactory.
- 7.3. UCSL reserves the right to distribute the work between the bidders for faster execution of the work or to cancel the tender, if so, felt necessary.

8. VALIDITY

- 8.1. The offer shall be valid for a period of 12(Twelve) months from the due date of the tender.

9. RATE

- 9.1. Rates are to be quoted in the Price Bid Format at Annexure III attached herewith.

10. PAYMENT

- 10.1. Payment Terms Payment will be made in 4 stages.

- a) **Stage-1** : 30% of the contract value shall be paid upon completion and commissioning of Bay-3 cranes work (12.5T + 12.5T – 2 Nos).
- b) **Stage-2** : 30% of the contract value shall be paid upon completion and commissioning of Bay-2 cranes work (10T + 10T – 2 Nos).
- c) **Stage-3** : 30% of the contract value shall be paid upon completion and commissioning of Bay-1 cranes work (10T + 10T – 1 Nos).
- d) **Stage-4** : 10% of the contract value shall be immediately paid upon satisfactory completion of the entire scope of work, including commissioning and testing of all cranes.

- 10.2. Payment shall be made within 30 days from receipt of invoice and necessary documentation as applicable.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- 10.3. Statutory levies such as I.T, Contribution towards PF, ESI, PT etc., shall be deducted from the bill as applicable.
- 10.4. Payment will be made by RTGS/NEFT to the account of Agency. The name of the bank, branch, A/C No., IFSC code & other particulars shall be furnished by the Agency in the proforma of UCSSL.

11. TAXES & DUTIES

- 11.1. GST shall be applicable extra on the prescribed work. You are requested to furnish the following details in the invoice/Bill.

- Applicable rate of GST/SAC Code
- Firms GST Reg. NO.

- GST Reg. No. of Udupi Cochin Shipyards Limited (**29AAACT1281B1ZO**).

12. SECURITY DEPOSIT

- 12.1. The successful tenderer shall remit 5% of the value of the contract as security deposit within 15 days of receipt of the work order. This amount may be remitted by way of demand draft or bank guarantee (in approved proforma of UCSSL) from any of the nationalized banks, valid till the satisfactory completion of the entire work. The Security Deposit will be released on certification of satisfactory completion of the contract and no liability to UCSSL by Officer-in charge. The Security Deposit retained will not bear any interest.

13. WARRANTY

- 13.1. The Contractor shall provide a warranty of 12 months from the date of commissioning or 15 months from the date of invoicing, whichever occurs earlier. This warranty shall cover manufacturing defects for the items expect drag chain and tele radio remote and ensure the defect-free and safe operation of the cranes During the warranty period, if any repairs require the replacement of spare parts supplied and installed by the Contractor, such parts shall be replaced free of cost by the Contractor.
- 13.2. For Tele radio and Drag chain required warranty will be 2 years and 5 years from the date of commissioning.

14. PERFORMANCE GUARANTEE

- 14.1. The complete work carried out by the contractor shall be guaranteed against defective on poor workmanship for a period of 12 months from the date of completion of work. Any work found defective during this period is to be repaired entirely at the contractor's cost.
- 14.2. Should any unsatisfactory performance and / or damage or failure occur due to poor workmanship and poor-quality material used by the contractor, the contractor shall be solely responsible for payment/reimbursement of expenditure incurred for rectifying the defect.
- 14.3. Towards this, a performance guarantee equivalent to 5% of the value of the contract to be furnished by the contractor on completion of the works by way of a bank guarantee (in approved proforma of UCSSL) from a nationalized bank valid till the expiry of the guarantee period. In case the contract fails to submit the PG in time, SD mentioned at Clause 12 will be retained till the expiry of guarantee period.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
 UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

15. LIQUIDATED DAMAGES

- 15.1. The progress of work will be monitored against the mutually agreed detailed schedule. Liquidated damages for delays in execution of the work beyond the scheduled date of completion, for any reason other than force majeure conditions, will be recovered at the rate of half percent of the value of the contract per week or part thereof, subject to a maximum of ten (10) percent of the value of the contract.
- 15.2. For better clarity, order values mentioned in LD clause are values excluding duties and taxes (Basic value). Liquidated damages, if any, shall be decided and settled only after the completion of the entire project but prior to the release of Final stage Payment.
- 15.3. If, for any reasons, supplier has a justification towards delay in supply / work execution and would intend to consider applicability/ non applicability of LD, the same shall be intimated to UCSL by way of a letter, failing which it will be deemed that delay is attributable to the supplier.
- 15.4. Delay in supply/Interruption of the work for reasons not attributable to supplier shall entitle extension of the order execution period for proportionate period without any additional cost to UCSL.

16. POWER OF ATTORNEY

- 16.1. The tenderer(s) shall have to sign in each page of the tender documents with official stamp as a token of his acceptance of the conditions stated therein.
- 16.2. The person signing the tender form on behalf of another or on behalf of a firm, shall enclose to the tender, a Power of Attorney or the said deed duly executed in his favour or the partnership deed giving him such power showing that, he has the authority to bind such other persons or the firm, as the case may be, in all matters pertaining to the contracts. If the Person so signing the tender, fails to enclose the said Power of Attorney, his tender shall be liable for being summarily rejected. The Power of Attorney shall be signed by all partners in the case of partnership concern, by the Proprietor in the case of a proprietary concern, and by the person who by his signature can bind the company in the case of a Limited Company.

17. TERMINATION & LIMITATION OF LIABILITY

- 17.1. This contract may be terminated upon the occurrence of any of the following events.
- 17.2. By agreement in writing of the parties hereto;
- 17.3. By the non-defaulting party, upon default by the other party, of any clause of this contract, if not remedied within fifteen (15) days, or such longer time as may be agreed upon by the parties, after receipt of notice thereof in writing from the non-defaulting party;
- 17.4. By the other party, upon either party;
- (i) Making the assignment for the benefit of creditors, being adjudged a bankrupt or becoming insolvent; or
 - (ii) Having a reasonable petition filed seeking its' dissolution or liquidation, not stayed or dismissed within sixty (60) days; or
 - (iii) Ceasing to do business for any reason.
- 17.5. For fraud and corruption or other unacceptable practices.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- 17.6. Upon expiry or termination of this Contract, neither party shall be discharged from any antecedent obligations or liabilities to the other party under this Contract unless otherwise agreed in writing.
- 17.7. UCSL may by notice in writing to Agency terminate the order after issuing due notice i.e., 30 days' notice period. UCSL shall be entitled to compensation for the loss limited to the order value.
- 17.8. Liability maximum that can be claimed by the Agency shall be limited to what is due to be and has been paid by UCSL for work done as per the payment milestones and limited to work order value.

18. ARBITRATION & JURISDICTION

- 18.1. Any disputes arising during the period of the contract shall, in the first instance be settled by mutual discussions and negotiations. The results of such resolution of dispute shall be incorporated as an amendment to the contract, failing which supplier shall approach the UCSL Grievance Redressal Committee as per relevant clause of the Contract.
- 18.2. If any dispute, disagreement or question arising out of or relating to or in consequence of the contract, or to its fulfillment, or the validity of enforcement thereof, cannot be settled mutually or the settlement of which is not herein specifically provided for, then the dispute shall within thirty days from the date either party informs the other in writing that such disputes, disagreement exists, be referred to arbitration. The arbitrators shall be appointed and the arbitration proceedings shall be conducted in accordance with and subject to the Arbitration and Conciliation Act, 1996 (No. 26 of 1996) as amended from time to time and the decision of the Arbitrators shall be final and binding on the parties hereto. The arbitration will be done by a Board comprising one arbitrator nominated by each party, and a mutually agreed Umpire. Each party shall bear its own cost of preparing and presenting its case. The cost of arbitration shall be shared equally by the parties unless the award provides otherwise. Performance under this Contract shall however, continue during arbitration proceedings and no payment due or payable by the parties hereto shall be withheld unless any such payment is or forms a part of the subject matter of arbitration proceedings.
- 18.3. Seat & Venue of Arbitration: The seat & venue of arbitration shall be at Bangalore.
- 18.4. Language of Arbitration: The Language of arbitration shall be English.
- 18.5. Governing Law: The contract shall be governed by Indian Law
- 18.6. In case of disputes, the same will be subjected to the jurisdiction of courts at Bangalore, Karnataka.

19. SUB CONTRACTING AND ASSIGNMENT

- 19.1. Contractor shall not assign or transfer the Purchase Order/ Work Order or any share or interest therein in any manner or degree to any third party without the prior written consent of UCSL.
- 19.2. Contractor shall not contract with any subcontractor and/or vendor without the prior written consent of UCSL. Such consent shall not relieve the Contractor from any of his responsibilities and liabilities under the Purchase Order/ Work Order. In addition, Contractor shall ensure that the terms and conditions of any such contract shall comply with and correspond to the terms and conditions of the Purchase Order/ Work Order.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

20. SECREC Y & RESTRICTION ON INFORMATION TO MEDIA

- 20.1. The information contained in the enquiry as such shall NOT be communicated to any third party without prior approval of UCSL.
- 20.2. Information in respect of contracts/orders shall NOT be released to the national or international media or anyone not directly involved in its execution without the written approval of UCSL

21. CANCELLATION OF ORDER AND RISK CONTRACTING

- 21.1. In the event the Agency fails to complete the work promptly and satisfactorily as per the terms of the order, and if any work is delayed beyond thirty (30) days from the agreed schedule, UCSL, without prejudice, reserves the right to cancel the order and get the work done at Agency's cost and the expenditure so incurred including any damage or loss will be recovered from him and the Security Deposit furnished by him is liable to be forfeited either in whole or in part.
- 21.2. UCSL also reserves to right to impose penalties ranging from Rs. 100 to Rs.500 to the employees of agencies and will be deducted from the bills, for any habitual offence on the cleanliness of uniforms, lack of obedience, not attending the tasks etc, and will be to the discretion of the Officer in charge for the work.

22. FORCE MAJEURE

- 22.1. Should failure in performance of any part of this contract arise from war, insurrection, restraint imposed by Government act or legislation of other statutory authority, from explosion, riot, legal lock-out, flood, fire, act of God or any inevitable or unforeseen event beyond human control which will be construed as a reasonable ground for extension of time, UCSL may allow such additional time as is mutually agreed to be justified by the circumstances of the case.

23. STORAGE OF MATERIAL AND EQUIPMENT

- 23.1. The Contractor shall arrange the storage of the materials/ equipment etc. if any, at a suitable location assigned by UCSL and shall ensure the safe and secure possession and handling of the items thus handed over to contractor. UCSL shall allot storage space within UCSL premises, if available.
- 23.2. As regards the equipment/materials stored by him as above as also in use by him, UCSL will not be responsible for any damage, pilferage, accident that may take place during the course of execution of the work. It will be entirely his responsibility to keep all the equipment, materials etc., in safe custody as also hold them duly insured at his expense.

24. IMS GUIDELINES

- 24.1. UCSL implemented an Integrated Management System (IMS) and the Quality Management System (QMS) within the yard. As part of IMS, subcontractors shall comply with the following measures related to the Quality, Health, and Safety & Environment (QHSE) policy of UCSL.
 - a) Meeting or exceeding customer requirements.
 - b) Assuring quality of the products and service.
 - c) Preventing occupational ill health & injuries.
 - d) Ensuring safe work sites.
 - e) Conserving natural resources.
 - f) Preventing / minimizing air, water & land pollution.
 - g) Handling and disposal of Hazardous wastes safely.
 - h) Complying with statutory & regulatory and other requirements.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- i) Developing skills and motivating employees.

24.2. Occupational Health, safety & Environmental requirements of UCSL shall also include the following.

- a) The contractor (or a sub-contractor performing work on behalf of the contractor) is deemed to comply with the Occupational health, safety and environmental policy of the company and also to all operational controls/standard operating procedures and shall undertake the work in total compliance with the requirements of the established Integrated Management System (IMS) of the company.
- b) The Contractor shall undertake the work in total compliance with all applicable legal/statutory requirements related to occupational health, safety and environment effective in the state of Karnataka.
- c) It is the sole responsibility of the contractor to assure that any sub-contractor/s who shall perform works in company lands/facilities/worksites on behalf of the contractor, is also following all requirements related to the Integrated Management System of the company and the health/safety/environmental Rules effective in the state.
- d) The contractor shall provide/implement and operate/practice all occupational health, safety and environmental management measures/facilities, for their period of contract, in their activities/at their work sites, which shall be required according to the IMS of the company or that required by the health/safety/environmental Rules established and effective in the state, at their own cost.
- e) If any contractor failed to comply with or violated any clauses/requirements of occupational health, safety and environmental Rules effective in the state, in their activities or at work sites and the same shall be exposed to the government or any competent authorities upon inspections, the contractor shall be solely responsible for all liabilities caused by his/her action and shall be responsible for paying the penalty and taking stipulated corrective actions insisted by the authorities within the specified time, at their own cost. Any liability to the company in this regard needs to be compensated by the contractor.
- f) Upon completion of the work, contractor shall clear the area and shall not leave any Occupational health/safety/environmental liabilities to the company, from their activities at the worksites.
- g) Any clarification related to IMS requirements of the yard, may be obtained by the contractor from the AGM (HSE) or the authorized representative of the contract, prior to the commencement of work.

25. SAFETY OF PERSONNEL AND FIRST AID

- 25.1. The Agency shall be entirely responsible for the safety of all the personnel employed by him on the work. In this regard, he may adopt all the required safety measures and strictly comply with the safety regulations in force. In this regard, the Agency will have to fully indemnify UCSL against any claims made by his workmen/other personnel.
- 25.2. The Agency may arrange to suitably insure all his workmen/ other personnel in this regard. UCSL will not be responsible for any injury or illness to the Agency's workmen/other personnel during execution of the works due to whatsoever reasons.
- 25.3. The Agency shall provide and maintain so as to be readily accessible during all working hours, a first aid box with prescribed contents at every place where he employs contract labor for executing the works.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

26. LABOUR LAWS AND REGULATIONS

- 26.1. The Agency shall undertake and execute the work with contract Labor only after taking license from the appropriate authority under the Contract Labor (Regulation & Abolition) Act 1970.
- 26.2. The Agency shall observe and comply with the provisions of all labour and industrial laws and enactments and shall comply with and implement the provisions of the Factories Act, 1948, Employees Provident Funds & Miscellaneous Provisions Act, 1952, Employees State Insurance Act, Payment of Gratuity Act, minimum Wages Act, Payment of Bonus Act, Contract Labour (Regulation and Abolition) Act and all other enactments as are applicable to him and his workmen employed by him. 29.6. The service provider shall have to engage men on round the clock basis and also on Sundays and holidays. Service has to be completed to the satisfaction of Udupi Cochin Shipyard Limited officer in-charge.

29.7. The service provider shall indemnify UCSL or its officers against any claims arising out of accidents or injuries to workmen or other persons or damage to other property which may arise during the execution of the contract or from breach of any Law or Regulation prior to delivery and acceptance of the items at UCSL.

29.8. The service provider shall also be governed by the General Conditions of Contract of UCSL, General Safety Rules and other relevant labour laws.

29.9. The upper age limit of all workers and supervisors employed by the Agency and those Agency who do or supervise the job themselves shall be as per the prevailing rules of UCSL and shall comply to the requirements of this tender.

29.10. Assistant General Manager, or his authorized representative will be the Officer-in-charge of these contracts.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

SCOPE OF WORK

In this scope of work covers complete electrical revamping of the following cranes.

- A. Bay-1 10T + 10T – 1Nos
- B. Bay-2 10T + 10T – 2Nos
- C. Bay-3 12.5T + 12.5T- 2Nos.

A. Scope of Work for Electrical Revamping of Bay-1 10t+10t EOT Crane

1. Project Overview

The project involves the complete electrical revamping of the Bay-1 (10+10 Ton) EOT Crane at the Hangarkatta Unit. Bay-1 currently has a Demag double-girder EOT crane with double crabs, each equipped with a 10-ton single hoist. The crane operates with hoist and cross travel (CT) in tandem. The existing system uses Demag crane logic with stepless speed control and a HBC make radio remote controller. The goal of this work is to undertake a complete electrical revival of the crane, installation of new panels and maintaining the tandem operation of the hoist and CT systems. The overall aim is to ensure the crane's safe, reliable, and efficient operation.

2. Work Components

- a. Complete replacement of the crane's electrical system, including control panels, wiring, and switchgear. The VFD will be from ABB and the control panel will be Reputed make with IP55 protection. The all VFDs with DBR will be provide by UCSL (All are ABB make only)
- b. Installation of a new radio remote control with tandem operation for Hoists 1 & 2 and CT. The radio remote controller should be a stepless type with a dead man switch joystick. Make: Tele radio with 2-year warranty.
- c. One spare set of Radio remote (1 transmitter & one receiver) to be considered which is suit to configure to any crane receiver.
- d. Replacement of all limit switches (Hoist, CT, and LT), including anti-collision sensors, junction boxes, lights, sirens, and other accessories. The LT and CT limit switches need to be replaced (Make: Telemechanic), but the hoist limit switch should be retained.
- e. Installation of load cell displays for improved operational safety and efficiency. A load cell with a load display pin type is required for the individual hoist. The dimensions of load display should be 415 mm x 200 mm) with a tolerance of +/-1-4% Make: SPA/NRE. Complete accessories must be supplied along with successful commissioning and load cell calibration certificates and load test certificate.
- f. Installation of encoder for the hoist motors, including all accessories. It must be installed on the hoist motor and be compatible with the VFD. New encoder with additional new support required for all hoist motors.
- g. Complete Drag Chain with accessories to be replaced a as per the existing model specification. All the cable should be IGUS Make with Drag chain duty cable (Which is travelling inside the Drag Chain). Required warranty will be 5 Years.
- h. Except Drag Chain Cable, other cables make will be Lapp/Polycab/KEI.
- i. Installation of crane lights (4 Nos, Make: Havells, 200watt LED), busbar phase indication lights, panel indication fault lights, and crane ready lights. For LT and CT movements, a siren and revolving light are required.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- j. Busbar alignment to be considered. Additional 5 Mtrs Busbar, damaged Joint cover and Holding clamp to be installed from Bay 3 removing Busbar. New current collector 8 Nos to be considered (Make: Vahle).
- k. Busbar Incoming cable to be lay proper upto 3 Mtrs with required support.
- l. General Health check-up to be carried out for entire crane. (Any modification and LT Wheel removing etc. not included) and need to submit the report.
- m. Control pendant existing to be used. Pendant hanging support rope to be replaced new. C Track free movement is required.

3. Operational Requirements

- a. LT, CT, and hoist must have stepless speed operation with a radio remote controller.
- b. CT and hoist must have tandem operation as specified in the table below.
- c. LT, CT, and hoist should have slow-speed cut-off and stop features.

10TON+10TON EOT CRANE	
Selected Operation Sequence	Required Operation
1/2	Crane Main crab and Hoist operate with the main joystick, Auxiliary crab and Hoist operate with the Auxiliary joystick,
1+2	Main and Auxiliary hoist and crab has to operate with using main joystick with tandem mode

Table 3.1

4. Testing and Commissioning

- a. Conduct thorough testing of all newly installed components to ensure they function correctly.
- b. Verify the crane's operation with the new electrical systems, control panels, and DBRs as per the table 3.1.
- c. Perform a load test and ensure the crane meets the specified performance requirements.

5. Structural Work:

- a. Current Collector Maintenance new cage to be consider. Existing cage to be removed and install the new one to easy access to the Current collector. Retention of all existing mechanical components such as the main girder, rope drum, hook, wheels, bearings, and gearboxes, and brakes unless specified for replacement.

6. Preferable Make of materials

- a. Drang chain with cable: IGUS
- b. Panels: Reputed with IP55 protection
- c. Limit switch: Telemechanic
- d. Control panel switchgear: Schneider/ABB
- e. DSL system: Vahle

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- f. Load cell: RE-SPA/NRE
- g. Encoder: Kubler

7. Deliverables

- a. Complete electrical revamping as described.
- b. Delivery of all electrical spare parts and components.
- c. Final commissioning of the crane, including safety checks and operational testing.

8. Factory acceptance test

- a. The vendor should arrange a factory acceptance test once the panel is ready with all components installed in it.
- b. The vendor should demonstrate a successful trial run at the vendor's premises.
- c. Upon UCSL representative's satisfaction during the FAT, the vendor can replace the existing panel with the new one.

9. Material supplied by UCSL

- a. VFDs for Hoist (2 Nos -ABB ACS880 72amps)
- b. VFD for CT (2 Nos- ABB ACS380)
- c. VFD for LT (1 No -ABB ACS 550)

10. Exclusions

The following items are not included in the scope of work and are the responsibility of the customer (M/s UCSL):

- a. Girder box end carriage, LT wheel, LT motors, hoist, and CT motors will remain unchanged.
- b. Third-party load testing and certification.

11. Training and Handover

- a. Provide training to UCSL's maintenance team on the operation, troubleshooting, and maintenance of the new systems installed in Bay-1 crane.
- b. Hand over all relevant documentation, including user manuals, warranty certificates, and any other technical documentation related to the components supplied and installed.

12. Acceptance Criteria

- a. The Bay-1 EOT Crane should seamlessly integrate with the newly installed systems and perform according to the specified requirements mentioned in the table 3.1
- b. Successful demonstration of the trial run and approval by UCSL's representatives.
- c. Completion of training and handover of all necessary documentation.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

B. Scope of Work for Electrical Revamping of Bay-2 EOT Crane

1. Project Overview

The project involves the complete electrical revamping of Bay-2 (10+10 Ton) two EOT Cranes at the Hangerkatta Unit. Bay-2 currently has two Demag double-girder EOT cranes with double crabs, each equipped with a 10-ton single hoist. The cranes operate with the hoist and cross travel (CT) in tandem on individual cranes and crane-to-crane tandem with hoist, CT, and long travel (LT). The existing system uses Demag crane logic with stepless speed control and a Master and Slave HBC radio remote controller. The goal of this work is to undertake a complete electrical revival of the crane, including the installation of new panels while maintaining the tandem operation of the hoist and CT systems in individual cranes and tandem operation between the cranes (Hoist, CT, and LT). The overall aim is to ensure the crane's safe, reliable, and efficient operation.

2. Work Components

2.1. Supply of Materials and Components

a) Control Systems:

- i. Radio Remote Control: Supply of stepless radio remote control with tandem operation (Master & Slave remotes required). An additional feature is required in the radio remote that the fault reset is possible through the remote.
- ii. Control Panels for Crane: Supply control panels for each crane, including Hoist, CT & LT VFDs (VFD Make: ABB). These panels should be configured to handle all operational aspects of the crane, ensuring precise control of movements. Hoist VFDs (4 Nos) with DBR will be UCSL scope

b) Load Cell with Displays:

- i. Supply of 4 new individual load cell displays along with load cells for each of the four hoists with accuracy of 1-4% and Make: NRE/SPA. These displays and load cells should be properly integrated and tested to ensure accurate load measurements and successful trial runs. These displays should be properly integrated and tested to ensure accurate load measurements and successful trial runs.

c) Electrical Components:

- i. Radio remote Joy stick type with Dead Man Switch and for CT, LT, Hoist and Crane to Crane Tandem operation. Make: Tele radio. Warranty - 2 Years. Drive Reset option to be considered in RRC.
- ii. One Master & Slave Control Pendant with required cable length to be considered (Make; DEMAG).
- iii. Complete Electrical Set: Supply 2 complete electrical sets including:
 - Limit switches (CT & LT)
 - Anti-collision sensors
 - Cables, lugs, switches
 - Junction boxes, lights, sirens
 - Other accessories required for commissioning the crane
 - Installation of encoders for all hoist motors, including all accessories like mounting gear wheel, Spider coupling. It must be installed on the hoist motor and be compatible with the VFD.

Udupi Cochin Shipyards Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

2.2. Additional Works:

- New current collector 16 Nos to be considered. (Make: Vahle). If any Joint cover and Holding clamp damaged it has to be replaced from bay 3 Removing accessories.
- Busbar Incoming cable to be lay proper up to 3 Mtrs with required support.
- General Health check-up to be carried out for entire crane. Report needs to submit
- Complete Drag Chain with accessories to be replaced a as per the existing model specification. All the cable should be IGUS Make with Drag chain duty cable (Which is travelling inside the Drag Chain). Required warranty will be 5 Years.
- Except Drag Chain Cable, other cables make will be Lapp/Polycab/KEI
- Current Collector Maintenance new cage to be consider. Existing cage to be removed and install the new one to easy access to the Current collector.

2.3. Installation and Revamping

- Install all supplied load cell displays, control panels, encoders, DBRs, and other electrical components on the Bay-2 cranes.
- Replace and revamp the existing electrical systems with the new components.
- Ensure that all installations are done in compliance with UCSL and industry standards.

3. Operational requirement

- Synchronization of both the cranes with tandem operation in LT, CT, and hoist operation with necessary safety cut-off features.
- Cranes have to operate in RRC and pendent.
- The following operations are required for the cranes with synchronization.

10T+10TON CRANE MASTER REMOTE OPERATING PROCEDURE		
Crane Selection	Selected Operation Sequence	Required Operation
1	C/H 1/2	Crab and Hoist have to operate independently with Main and auxiliary Joy stick
	C/H 1+2	Hoist and Crab need to operate in Tandem with Main Joystick
2	C/H 1/2	Crab and Hoist have to operate independently with the Main and auxiliary Joy stick.
	C/H 1+2	Crab and Hoist have to operate need to operate in Tandem with Main Joystick
1+2	C/H 1/2	Master Main crab and Main Hoist have to operate independently with the Main and auxiliary Joystick.
1+2	C/H 1+2	Master Main Hoist and Main Crab need to operate in Tandem with Main Joystick
1+2	C/H 1+3	Main + Follower Crane Main Hoist and Main Crab has to operate in Tandem with Master remote Main joystick

Udupi Cochin Shipyards Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

1+2	C/H 2+4	Main + Follower Crane Auxiliary Hoist and Auxiliary Crab have to operate in Tandem with Master remote Auxiliary joystick
1+2	C/H 1-4	Master and Follower crane All hoist and all Crab operate on Tandem with Master remote with Main Joystick
1+2	C 1+2 /3+4, H 1-4	Master crane Both crabs in Tandem with Main Joystick operation, Follower crane Both crabs in Tandem with Auxiliary Joystick operation, and all four Hoist in tandem with master remote with main joystick
1+2	C 1-4, H1+2/3+4	Master crane Both Hoists in Tandem with Main Joystick operation, Follower crane Both Hoists in Tandem with Auxiliary Joystick operation, and all four Crabs in tandem with the master remote main joystick
1+2	C/H 1+3,	Master crane main Hoist and crab and Follower crane Main Hoist and crab have to operate master remote main joystick in tandem mode.
	C/H 2+4	Master crane Auxiliary Hoist and crab and Follower crane Auxiliary Hoist and crab have to operate the master remote main joystick in tandem mode.
10T+10TON CRANE SLAVE REMOTE OPERATING PROCEDURE		
Selected Crane	Selected Operation Sequence	Required Operation
2	3/4	Follower crane Main crab and Hoist operate with the main joystick, Follower crane Auxiliary crab and Hoist operate with the Auxiliary joystick,
	3+4	Main and Auxiliary hoist and crab has to operate with using main joystick with tandem mode
Additional functions, safety and speed references for both cranes		
Additional functions	If any one of the hoist/crabs/girder 1st limit switches acted then all the remaining three hoists/crabs/girder has to run on low speed.	
	If any one of the hoist/crabs/girder 2nd step limit switches acted then remain all hoist/crab/girder should be stop.	
	There should not be any difference in speed of hoists/crab/girders (after the tandem operation difference in distance between hoists/crab/2 cranes will be same).	
	Hoist safety operation Hoist Lower and Upper Cutoff Limit switches are to be provided (With two step)	
	CT /LT safety operation Two cut off Limit switches are to be provided (With two step)	

Table 3.c.1

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

4. Testing and Commissioning

- a) Conduct thorough testing of all newly installed components to ensure they function correctly.
- b) Verify the crane's operation with the new electrical systems, control panels, and DBRs as per the Table 3.c.1.
- c) Perform a load test and ensure the crane meets the specified performance requirements.

5. Training and Handover

- a) Provide training to UCSL's maintenance team on the operation, troubleshooting, and maintenance of the new systems installed in Bay-2 cranes.
- b) Hand over all relevant documentation, including user manuals, warranty certificates, and any other technical documentation related to the components supplied and installed.

6. Factory acceptance test

- a) The vendor should arrange a factory acceptance test once the panel is ready with all components installed in it.
- b) The vendor should demonstrate a successful trial run at the vendor's premises.
- c) Upon UCSL representative's satisfaction during the FAT, the vendor can replace the existing panel with the new one.

7. Deliverables

- a) Fully functional Bay-2 EOT Crane with all new electrical systems installed and operational.
- b) Successful commissioning report.
- c) Training session and handover of documentation.

8. Acceptance Criteria

- a) The Bay-2 EOT Crane should seamlessly integrate with the newly installed systems and perform according to the specified requirements mentioned in the table 3.c.1.
- b) Successful demonstration of the trial run and approval by UCSL's representatives.
- c) Completion of training and handover of all necessary documentation.

UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

C. Scope of Work for Electrical Revamping of Bay-3 12.5t+12.5t EOT Cranes

1. Project Overview

The project involves the complete electrical revamping of Bay-3 (12.5+12.5 Ton) two EOT Cranes at the Hangerkatta Unit. These cranes currently have Demag double-girder configurations with double crabs, each equipped with a 12.5-ton single hoist. The existing system uses Demag crane logic with stepless speed control and a Tele Radio remote controller. The objective is to undertake a complete electrical revival of the cranes, including the installation of new panels while maintaining the tandem operation of the hoist, CT, and LT systems. The overall aim is to ensure the cranes' safe, reliable, and efficient operation.

2. Work Components

2.1 Electrical System Replacement

- Complete replacement of the cranes' electrical systems, including control panels, wiring, and switchgear.
- VFDs (Hoist, CT and LT-10 Nos) to be from ABB and are in vendor scope.
- Control panels to be of reputed make with IP55 protection.
- New 250A Copper Busbar with accessories 110 Mtrs to be consider with 16 Nos of Current collectors. Make: Safe Track with Bolted Joint.
- Existing Busbar dismantling and New Busbar Installation to be considered.
- Busbar Incoming cable to be lay proper upto 3 Mtrs with required support.

2.2 Remote Control System

- Retention of the existing brand-new Tele Radio remote controller.

2.3 Limit Switches and Accessories

- Replacement of all limit switches (Hoist, CT, and LT), including:
 - Anti-collision sensors
 - Junction boxes
 - Lights and sirens
- LT and CT limit switches (Make: Telemechanic) to be replaced.
- Hoist limit switches to be retained.
- LT and CT limit switch: LT - 1 Nos and CT - 2 Nos per crane.

2.4 Load Cell Installation

- Installation of separate pin type load cell displays with separate load cells for individual hoists for improved operational safety and efficiency.
- Load display dimensions: 415 mm x 200 mm, with a tolerance of +/1-4% Make: NRE/SPA.

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

- c) Complete accessories must be supplied, along with successful commissioning, load cell calibration certificates, and load test certificates.

d) Hoist Motor Encoder

- i. Installation of four encoders for hoist motors per crane, including all accessories.
- ii. Must be compatible with the VFD.
- iii. Encoders to be provided with mounting brackets.
- iv. Additional new support required.

2.5 Drag Chain Modification

- a) Complete Drag Chain with accessories to be replaced as per the existing model specification. All the cable should be IGUS Make with Drag chain duty cable (Which is travelling inside the Drag Chain). Required warranty will be 5 Years.
- b) Except Drag Chain Cable, other cables make will be Lapp/Polycab/KEI

2.6 Crane Lighting and Indicators

- a) Installation of:
 - i. Crane lights (4 Nos per crane, Make: Havells, 200W LED)
 - ii. Busbar phase indication lights
 - iii. Panel indication fault lights
 - iv. Crane ready lights
- b) Siren and revolving lights required for LT and CT movements.

2.7 Additional work

- a) General Health check-up to be carried out for entire crane
- b) Current Collector Maintenance new cage to be consider. Existing cage to be removed and install the new one to easy access to the Current collector.

3. Operational Requirements

3.1 Movement Control

- a) LT, CT, and hoist must have stepless speed operation with a radio remote controller.
- b) CT, LT, and hoist must have tandem operation.
- c) LT, CT, and hoist should have slow-speed cut-off and stop features.

2	3/4	Follower crane Main crab and Hoist operate with the main joystick, Follower crane Auxiliary crab and Hoist operate with the Auxiliary joystick,
	3+4	Main and Auxiliary hoist and crab has to operate with using main joystick with tandem mode
Additional functions, safety and speed references for both cranes		
Additional functions		If any one of the hoist/crabs/girder 1st limit switches acted then all the remaining three hoists/crabs/girder has to run on low speed.
		If any one of the hoist/crabs/girder 2nd step limit switches acted then remain all hoist/crab/girder should be stop.
		There should not be any difference in speed of hoists/crab/girders (after the tandem operation difference in distance between hoists/crab/2 cranes will be same).
		Hoist safety operation Hoist Lower and Upper Cutoff Limit switches are to be provided (With two step)
		CT /LT safety operation Two cut off Limit switches are to be provided (With two step)

Table 3.2.1

4. Testing and Commissioning

- Conduct thorough testing of all newly installed components to ensure they function correctly.
- Verify the crane's operation with the new electrical systems, control panels, and DBRs as per the Table 3.2.1
- Perform a load test and ensure the crane meets the specified performance requirements.

5. Training and Handover

- Provide training to UCSL's maintenance team on the operation, troubleshooting, and maintenance of the new systems installed in Bay-3 cranes.
- Hand over all relevant documentation, including user manuals, warranty certificates, and any other technical documentation related to the components supplied and installed.

6. Preferable Make of Materials

- VFD: ABB (Vendor scope)
- Drag Chain with Cable: IGUS
- Panels: Rittal with IP55 protection
- Limit Switch: Telemecanic
- Control Panel Switchgear: Schneider/ABB
- DSL System: Safetrack
- Load Cell: RE-SPA/NRE
- Encoder: Kubler

Udupi Cochin Shipyard Limited
Tender for EOT Crane Revival Work at UCSL Hangarkatta Yard
UCSL/CC/SER/T/UM/39/2025 Dt 15th July 2025

7. Deliverables

- Complete electrical revamping as described.
- Delivery of all electrical spare parts and components.
- Final commissioning of the cranes, including safety checks and operational testing.
- Demonstration of all operational requirements during commissioning.

8. Factory Acceptance Test (FAT)

- The vendor should arrange a factory acceptance test once the panels are ready with all components installed.
- The vendor should demonstrate a successful trial run at their premises.
- Upon UCSL representative's satisfaction during the FAT, the vendor can replace the existing panels with the new ones.

9. Exclusions

The following items are not included in the scope of work and are the responsibility of the customer (M/s UCSL):

- Girder box end carriage, LT wheel, LT motors, hoist, and CT motors will remain unchanged.
- Third-party load testing and certification.

10. Acceptance Criteria

- The Bay-3 EOT Crane should seamlessly integrate with the newly installed systems and perform according to the specified requirements mentioned in the table 3.2.1
- Successful demonstration of the trial run and approval by UCSL's representatives
- Completion of training and handover of all necessary documentation.

Additional Points to all cranes:

- General Health check-up to be carried out for entire cranes.
- VFD Make: ABB with crane software. Hoist Model: 880, CT: 380 & LT: 550.
- 6A 230V Plug points is required for All the control panel.
- 3rd party certification with test Load – M/s UCSL Scope.
- All the RRC Connector model should be same. For connector Only one point to be considered for RRC and Pendant.
- LT & CT Striker to be consider for all the Bays.
- For tandem Master Crane CS Bay side and Slave Crane River Side.
- Crane has to operate based on the command without any deviation in operation.
- Only the Hydra will be provided by UCSL for a duration of 10 days for the five crane-related works, subject to its availability. All other equipment required for the job shall be arranged by the contractor.
